Model Request Survey
2006

Background

This survey was compiled from submissions made by people who had been asked for their thoughts via the CHPA website. While some structure was provided in the questions, the responses were predominately free form. Most responses tended to be generic 'a general service gondola' rather than identification of a specific model. The lists reflect the responses as received, and so some models identified are only by type. Where a specific model was identified for that type it has also been included.

In some cases, a general model was identified only. This was true for 'heated cars', which may be a reference to the charcoal heaters that were on the 8 hatch reefers. It could also be a reference to the mechanical cars, so some interpretation of the results may be required.

Some of the models identified have been done some time ago (such as the FA2). Additional models have also entered the market recently (FP 9's etc.) and the person submitting them may have been unaware. Further models are also under development or already announced (D 10's). Some modelers specifically requested 'improved existing models'. This was the case for the Fowler boxcars suggesting an ongoing appetite for this type of car, even with the number of models that have been available.

It was determined that further clarification of the list would only provide more variation and choice, but not add significantly to the value. This is especially when you consider that what gets produced will be largely dependent on early identification of candidates (this list), coupled with good drawings and supporting photographs necessary for production.

Number of respondents: 21

Steam Locomotives

Model	Type	Votes
D10	4-6-0	10
'G'	4-6-4 (Pacific)	9
H1	4-6-4 (Royal Hudson)	3
M4	2-8-0 (Consolidation)	3
	2-10-4 (Selkirk)	3
N2	2-8-0 (Consolidation)	2
P1	2-8-2 (Mikado)	2

Note: Specific model of the Selkirk were not identified, same for 'G' Hudson

Diesel Locomotives

Model	Manufacturer	Votes
RS-23	MLW	5
1200RS	EMD	4
H-16-44	CLC	4
RS-3	MLW	3
SD-40-2	EMD	2
FP 9 (A/B)	EMD	2
RS-2	MLW	1
S-2	MLW	1
GP-38-2	EMD	1
GP 9 (passenger)	EMD	1
C-630	MLW	1
FA-2 (A/B)	MLW	1

Note: MLW is generically used and may include models from Alco. EMD may include models made by GMD.

Freight Cars

Model	Type	Votes
Mini Box	Box Car	8
8 Hatch (Hinge/Plug)	Reefer	8
Steel End Cupola	Caboose	6
Slab Side Hopper	Hopper	3
277xxx-278xxx	Stock Car	3
Fowler	Box Car	3
Ore 377xxx	Hopper	3
Heated Cars		2
Cylindrical Hoppers (Flat Top)	Hopper	2
Plywood End Cupola	Caboose	2
Wide Vision	Caboose	2
TOFC (40')	Flat Car	2
1 ½ Door Single Sheath	Box Car	2
Small Otis	Hopper	1
Large Otis	Hopper	1
Wood Chip 343xxx	Hopper	1
Bulkhead 316xxx 317xxx	Flat	1
Grain	Box Car	1
'Sultrans'	Gondola	1
Centre Beam	Flat Car	1
GS 348xxx-349xxx	Gondola	1
Wood	Reefer	1
1932 ARA	Box Car	1
38' Mill	Gondola	1
46'	Flat Car	1
36' Wood	Box Car	1

Passenger Cars

Model	Manufacturer	Votes
Lightweight (Canadian)	Budd	9
Heavyweights		5
Lightweight (Grove)	Angus	3
Head End Cars		3
'U' Series Sleeper		1
'Kettle Valley'		1

OCS Cars

Model		Votes
Snow Plow		5
Wrecking Crane		2
Crane Tender		1
Road Repair Car		1
Business Car		1

Structures

Type		Votes
Small Rural Station		2
Tool Sheds		2
Coal Shed		1
Brick Station		1
Portable Station		1
Grain Elevators		1
